How to read and understand this benefit illustration?

This benefit illustration is intended to show what charges are deducted from your premiums and how the unit fund, net of charges and taxes, may grow over the years of the policy term if the fund earns a gross return of 8% p.a. or 4% p.a. These rates, i.e., 8% p.a. and 4% p.a. are assumed only for the purpose of illustrating the flow of benefits if the returns are at this level. It should not be interpreted that the returns under the plan are going to be either 8% p.a. or 4% p.a.

Net Yield mentioned corresponds to the gross investment return of 8% p.a., net of all charges but does not consider mortality, morbidity charges, underwriting extra, if any, guarantee charges and cost of rider, if deducted by cancellation of units. It demonstrates the impact of charges exclusive of taxes on the net yield. Please note that the mortality charges per thousand sum assured in general, increases with age.

The actual returns can vary depending on the performance of the chosen fund, charges towards mortality, morbidity, underwriting extra, cost of riders etc. The investment risk in this policy is borne by the policyholder, hence, for more details on terms and conditions please read sales literature carefully.

Part A of this statement presents a summary view of year-by-year charges deducted under the policy, fund value, surrender value and the death benefit, at two assumed rates of return. Part B of this statement presents a detailed break-up of the charges, and other values.

Explanation - For the purposes of this sub-section, the mis-statement of or suppression of fact shall not be considered material unless it has a direct bearing on the risk undertaken by the insurer, the onus is on the insurer to show that had the insurer been aware of the said fact no life insurance policy would have been issued to the insured. (5) Nothing in this section shall prevent the insurer from calling for proof of age at anytime if he is entitled to do so, and no policy shall be deemed to be called in question merely because the terms of the policy are adjusted on subsequent proof that the age of the life insured was incorrectly stated in the proposal."

15. Premium Discontinuance This section is applicable only for Limited Pay and Regular Pay policies. **a)** Premium discontinuance during the first five policy years. In case of discontinuance of policy due to non-payment of premiums during the first five policy years, upon the expiry of grace period, the Fund Value including Top-up Fund Value, if any, shall be credited to the DP Fund after deduction of applicable discontinuance charges and the risk cover and rider cover, if any, shall cease. It will continue to remain in the DP fund till the policy is revived by paying due premiums. We will communicate the status of the policy to you within three months of first unpaid premium providing you the option to revive the policy within the revival period. The revival period is three years from date of first unpaid premium. i. If you opt to revive but do not revive the policy during the revival period, the monies will remain in the DP fund till the end of the revival period or the lock in period, whichever is later, after which the monies will be paid out and thereafter the policy shall terminate and all rights, benefits and interests will stand extinguished. ii. If you do not exercise the option to revive the policy, the monies will remain in the DP fund and will be paid out at the end of lock-in period and thereafter the policy shall terminate and all rights, benefits and interests will stand extinguished. iii. However, you have an option to surrender the policy anytime and monies in the DP fund will be paid out at the end of lock-in period or date of surrender whichever is later. **b)** Premium discontinuance after the first five policy years. In case of discontinuance of policy due to non-payment of premium after the first five policy years, upon expiry of the grace period, the policy will be converted into a reduced paid-up policy with paid-up sum assured. The rider cover, if any, shall cease. Reduced paid-up Sum Assured = Original Sum Assured X (Total number of premiums paid till the date of discontinuance/ Original number of premiums payable). All charges as per terms and conditions of the policy shall be deducted during the revival period. However, the mortality charges shall be deducted based on the reduced paid up sum assured only, unless you choose option 3 as detailed below, in which case mortality charges shall be deducted as per the Original Sum Assured. We will communicate the status of the policy to you within three months of first unpaid premium providing you the following options to exercise: 1. Revive the policy within the revival period of three years 2. Complete withdrawal of the policy 3. Continue the policy till the revival period with Original Sum Assured. If you choose option 1 and do not revive the policy during the revival period, the Fund Value, including the Top-up Fund Value, if any, will be paid to you at the end of the revival period or maturity, whichever is earlier, and the policy shall terminate and all rights, benefits and interests will stand extinguished. If you choose option 2, the policy will be surrendered and the Fund Value, including the Top-up Fund Value, if any, will be paid to you. On payment of surrender value, the policy shall terminate and all rights, benefits and interests will stand extinguished. If you choose option 3, the policy will continue with Original Sum Assured till the end of the revival period or maturity, whichever is earlier. This may cause rapid depletion of the fund value as there will be no payment of premiums in future. The Fund Value, including the Top-up Fund Value, if any, shall be paid to you at the end of the revival period or maturity, whichever is earlier, and the policy shall terminate and all rights, benefits and interests will stand extinguished. For a Whole Life policy, the option to continue with Original Sum Assured is not available if premiums have been paid for less than 7 years. If you do not choose any of these options, the policy shall continue to be in reduced paid up status. At the end of the revival period or maturity, whichever is earlier, the Fund Value, including the Top-up Fund Value, if any, shall be paid to you and the policy shall terminate and all rights, benefits and interests will stand extinguished. You will have an option to surrender the policy anytime. On surrender, the Fund Value, including the Top-up Fund Value, if any, shall be paid to you and the policy shall terminate and all rights, benefits and interests will stand extinguished.

8. **Portfolio Strategy** You can choose among the following four asset allocation strategies: i. Target Asset Allocation Strategy ii. Trigger Portfolio Strategy 2 iii. LifeCycle-based Portfolio Strategy 2 iv. Fixed Portfolio Strategy You may opt into or out of a Portfolio Strategy during the policy term. You can only have your funds in one of the Portfolio strategies at any point in time. i. **Target Asset Allocation Strategy** Under this strategy, You can allocate the premiums between any two funds available with this policy in a proportion of Your choice. Every quarter, units shall be rebalanced as necessary to maintain the proportions of the Funds as chosen at strategy inception. The re-balancing of units shall be done on the last day of each Policy quarter. You can avail this option at inception or at any time later during the Policy Term. If the last day of the Policy quarter is a non-valuation date then the next working day's NAV will be applicable. ii. **Trigger Portfolio Strategy 2** Under this strategy, your investments will initially be distributed between two funds Multi Cap Growth Fund, an equity oriented fund, and Income Fund, a debt oriented fund - in a 75:25 proportion. The fund allocation may subsequently get altered due to market movement. We will re-allocate funds in the portfolio based on a pre-defined trigger event. Working of the strategy: a. The trigger event is defined as a 10% upward or downward movement in NAV of Multi Cap Growth Fund, since the previous rebalancing. For determining the first trigger event, the movement of 10% in NAV of Multi Cap Growth Fund will be measured vis-à-vis the NAV at the inception of the strategy in your policy. b. On the occurrence of the trigger event, any fund value in Multi Cap Growth Fund which is in excess of three times the Income Fund value is considered as gains and is transferred to the liquid fund - Money Market Fund. This ensures that gains are capitalized, while maintaining the asset allocation between Multi Cap Growth Fund and Income Fund in the proportion of 75:25. c. In case there are no gains to be capitalized, funds in Multi Cap Growth Fund, Income Fund and Money Market Fund are redistributed in Multi Cap Growth Fund and Income Fund in 75:25 proportion. iii. **LifeCycle-based Portfolio Strategy 2 a.** Under this strategy, the Company's Multi Cap Growth Fund will be used for equity exposure and the Income Fund for debt exposure. b. The Fund Value will be allocated to the Multi Cap Growth and Income Fund as per the Life Assured's age as described in the following schedule.

Age (Last birthday)	Multi Cap Growth Fund	Income Fund
0 – 25	80%	20%
26 – 35	75%	25%
36 - 45	65%	35%
46 – 55	55%	45%
56 – 65	45%	55%
66+	35%	65%

Under this strategy, you have the option to make Partial Withdrawals. Partial Withdrawals and different growth rates of the Multi Cap Growth and Income Fund may cause the actual fund weightings to differ from the above schedule. Since the objective is to allocate assets based on risk appetite at the current age, the Policyholder funds will be regularly rebalanced to achieve the above allocations. This will be done by automatic switching of units between the two funds at every policy quarter. During the last ten quarters of the Policy term, the exposure in the Multi Cap Growth Fund will be systematically reduced as per the Life Assured's age as described in the table below by automatic switches to the Income Fund. This is done so that the Fund Value at the time of maturity is not adversely affected by short term volatility in the equity market that Multi Cap Growth Fund invests in.

Age (Last birthday)		Multi Cap Growth Fund	Exposure in the last ten quarters prior to maturity									
From	To		10	9	8	7	6	5	4	3	2	1
0	25	80%	72.0%	64.0%	56.0%	48.0%	40.0%	32.0%	24.0%	16.0%	8.0%	0.0%
26	35	75%	67.5%	60.0%	52.5%	45.0%	37.5%	30.0%	22.5%	15.0%	7.5%	0.0%
36	45	65%	58.5%	52.0%	45.5%	39.0%	32.5%	26.0%	19.5%	13.0%	6.5%	0.0%
46	55	55%	49.5%	44.0%	38.5%	33.0%	27.5%	22.0%	16.5%	11.0%	5.5%	0.0%
56	65	45%	40.5%	36.0%	31.5%	27.0%	22.5%	18.0%	13.5%	9.0%	4.5%	0.0%
66+		35%	31.5%	28.0%	24.5%	21.0%	17.5%	14.0%	10.5%	7.0%	3.5%	0.0%

iv. **Fixed Portfolio Strategy** Under this strategy, the Policyholder may choose to invest his or her money in any of the funds offered and in proportions of his or her choice. The available funds are described in section 7 above. A Policyholder who chooses the Fixed Portfolio Strategy may avail of the Automatic Transfer Strategy described below. There would be no additional charge for selecting the Automatic Transfer Strategy Under this strategy you can invest all or some part of your investment in Money Market Fund or Income Fund and transfer a fixed amount in regular monthly instalments into any one of the following funds: Bluechip Fund, Maximiser V, Multi Cap Growth Fund, Maximise India Fund, Opportunities Fund, Value Enhancer Fund, Focus 50 Fund or India Growth Fund. This transfer will be done in equal instalments in not more than 12 monthly instalments.The Policyholder can opt for a transfer date of either 1st or 15th of every month. If the date is not mentioned, the funds will be switched on the 1st of every month. If the 1st or 15th of the month is a non-valuation date then the next working day's NAV will be applicable. At the time of transfer, the required number of units will be withdrawn from the fund chosen, at the applicable unit value, and new units will be allocated in the chosen destination fund. The minimum transfer amount is Rs. 2,000. The Automatic Transfer Strategy will be renewed and will be regularly processed for the Policyholder till the Company is notified, through a written communication, to discontinue the same. The Automatic Transfer Strategy will not be applicable if the source Fund Value is less than the amount nominated for transfer.

All assets relating to the Fund shall be and shall remain in our absolute beneficial ownership and control. There is no trust created, whether express or implied, by us in respect of the investments in your favour or assignee or nominee of the policy or any other person.
