Features of ICICI Pru Future Perfect

ICICI Pru Future Perfect is a savings and protection plan which gives you guaranteed benefits, life cover and a potential to grow your investments with bonuses. Read on to know more about the benefits of this policy.

1 How does this plan work?

At the time of entering this policy, you would have made three importance choices:

- The premium amount that you will pay
- The number of years for which you will pay premium, i.e. Premium Payment term
- The number of years after which your policy matures, i.e. Policy Term

As soon as you start paying premiums, a fixed percentage of your premium gets added to your policy. This will continue to get added to your policy till the end of your policy term. This is known as a Guaranteed Additions. At the end of your policy term in Feb 2036, you will get a Guaranteed Maturity Benefit (GMB) as a lump sum, along with Guaranteed Additions and bonus amounts that have been added to your policy. Read on to know more about these benefits.

2 What are the benefits that I get from this policy?

You get the following benefits in this policy:

- 1. Guaranteed additions (GA):** A fixed percentage of your premium will be added to your policy every year till the end of your policy term provided all the premiums of your policy are paid.

The guaranteed additions that will be added to your policy is as follows:

- ₹ 5,000/- will be added to your policy every year from Feb 2021 to Feb 2026.
- ₹ 6,000/- will be added to your policy every year from Feb 2026 to Feb 2031.
- ₹ 7,500/- will be added to your policy every year from Feb 2031 to Feb 2036.

The guaranteed additions accumulated on your policy will be paid along with your maturity benefit.

- 2. Bonus:** Depending on the performance of the company, you may also receive a bonus on your policy every year. This will further enhance your maturity value and will be paid to you along with your maturity benefit.
- 3. Guaranteed Maturity Benefit:** You will receive a Guaranteed Maturity Benefit of ₹ 3,61,250/- at the end of your policy term, i.e. in Feb 2036. This is payable only if all premiums of your policy have been paid.

At the end of your policy term, i.e. in Feb 2036, you will receive a lump sum which is a sum of Guaranteed Additions (GA), Guaranteed Maturity Benefit (GMB) and bonuses that will be declared during the term of your policy.

Since bonuses are dependent on the performance of the company, we are showing two different rate of returns and the corresponding bonus amounts, you are likely to get in the table below.

	4% p.a. Returns scenario**	8% p.a. Returns scenario**
Total Guaranteed Additions (A)	₹ 92,500/-	
Guaranteed Maturity Benefit (B)	₹ 3,61,250/-	
Estimated Bonus amount (C)	₹ 1,46,932/-	₹ 3,70,937/-
Total Maturity Benefit (A+B+C)	₹ 6,00,682/-	₹ 8,24,687/-

**Assumed rate of return

The bonus amount shown in the example is not guaranteed.

As per the features of this policy, the Maturity Benefit you receive will be tax-free subject to conditions under Section 10(10D) and prevailing tax laws.

How to read and understand this benefit illustration?

This benefit illustration is intended to show year-wise premiums payable and benefits under the policy, at two assumed rates of interest i.e., 8% p.a. and 4% p.a.

Some benefits are guaranteed and some benefits are variable with returns based on the future performance of your insurer carrying on life insurance business. If your policy offers guaranteed benefits these will be clearly marked guaranteed in the illustration table on this page. If your policy offers variable benefits then the illustrations on this page will show two different rates of assumed future investment returns, of 8% p.a. and 4% p.a. These assumed rates of return are not guaranteed and they are not the upper or lower limits of what you might get back, as the value of your policy is dependent on a number of factors including future investment performance.
