How to read and understand this benefit illustration?

This benefit illustration is intended to show what charges are deducted from your premiums and how the unit fund, net of charges and taxes, may grow over the years of the policy term if the fund earns a gross return of 8% p.a. or 4% p.a. These rates, i.e., 8% p.a. and 4% p.a. are assumed only for the purpose of illustrating the flow of benefits if the returns are at this level. It should not be interpreted that the returns under the plan are going to be either 8% p.a. or 4% p.a.

Net Yield mentioned corresponds to the gross investment return of 8% p.a., net of all charges but does not consider mortality, morbidity charges, underwriting extra, if any, guarantee charges and cost of rider, if deducted by cancellation of units. It demonstrates the impact of charges exclusive of taxes on the net yield. Please note that the mortality charges per thousand sum assured in general, increases with age.

The actual returns can vary depending on the performance of the chosen fund, charges towards mortality, morbidity, underwriting extra, cost of riders etc. The investment risk in this policy is borne by the policyholder, hence, for more details on terms and conditions please read sales literature carefully.

Part A of this statement presents a summary view of year-by-year charges deducted under the policy, fund value, surrender value and the death benefit, at two assumed rates of return. Part B of this statement presents a detailed break-up of the charges, and other values.

of any kind of risk relating to lives or property in India, any rebate of the whole or part of the commission payable or any rebate of the premium shown on the policy, nor shall any person

taking out or renewing or continuing a policy accept any rebate, except such rebate as may be allowed in accordance with the published prospectuses or tables of the insurer: *Provided that*

acceptance by an insurance agent of commission in connection with a policy of life insurance taken out by himself on his own life shall not be deemed to be acceptance of a rebate of

premium within the meaning of this sub-section if at the time of such acceptance the insurance agent satisfies the prescribed conditions establishing that he is a bona fide insurance agent

employed by the insurer. (2) Any person making default in complying with the provisions of this section shall be liable for a penalty which may extend to ten lakh rupees.

Section 45 Policy not to be called in question on ground of mis statement after three years: (1) No policy of life insurance shall be called in question on any ground whatsoever after the

or the date of revival of the policy or the date of the rider to the policy, whichever is later, on the ground of fraud: Provided that the insurer shall have to communicate in writing to the insured

or the legal representatives or nominees or assignees of the insured the grounds and materials on which such decision is based. Explanation I. For the purposes of this sub-section, the

expression 'fraud' means any of the following acts committed by the insured or by his agent, with the intent to deceive the insurer or to induce the insurer to issue a life insurance policy: (a)

the suggestion, as a fact of that which is not true and which the insured does not believe to be true; (b) the active concealment of a fact by the insured having knowledge or belief of the fact;

(c) any other act fitted to deceive; and (d) any such act or omission as the law specially declares to be fraudulent. Explanation II. Mere silence as to facts likely to affect the assessment of the

silence is, in itself, equivalent to speak. (3) Notwithstanding anything contained in sub-section (2), no insurer shall repudiate a life insurance policy on the ground of fraud if the insured can

date of repudiation shall be paid to the insured or the legal representatives or nominees or assignees of the insured within a period of ninety days from the date of such repudiation.

Explanation - For the purposes of this sub-section, the mis-statement of or suppression of fact shall not be considered material unless it has a direct bearing on the risk undertaken by the

insurer, the onus is on the insurer to show that had the insurer been aware of the said fact no life insurance policy would have been issued to the insured. (5) Nothing in this section shall

8. **Portfolio Strategy** You can choose among the following four asset allocation strategies: i. Target Asset Allocation Strategy ii. Trigger Portfolio Strategy 2 iii. LifeCycle-based Portfolio Strategy 2 iv. Fixed Portfolio Strategy You may opt into or out of a Portfolio Strategy during the policy term. You can only have your funds in one of the Portfolio strategies at any point in time. i. **Target Asset Allocation Strategy** Under this strategy, You can allocate the premiums between any two funds available with this policy in a proportion of Your choice. Every quarter, units shall be rebalanced as necessary to maintain the proportions of the Funds as chosen at strategy inception. The re-balancing of units shall be done on the last day of each Policy quarter. You can avail this option at inception or at any time later during the Policy Term. If the last day of the Policy quarter is a non-valuation date then the next working day's NAV will be applicable. ii. **Trigger Portfolio Strategy 2** Under this strategy, your investments will initially be distributed between two funds Multi Cap Growth Fund, an equity oriented fund, and Income Fund, a debt oriented fund - in a 75:25 proportion. The fund allocation may subsequently get altered due to market movement. We will re-allocate funds in the portfolio based on a pre-defined trigger event. Working of the strategy: a. The trigger event is defined as a 10% upward or downward movement in NAV of Multi Cap Growth Fund, since the previous rebalancing. For determining the first trigger event, the movement of 10% in NAV of Multi Cap Growth Fund will be measured vis-à-vis the NAV at the inception of the strategy in your policy. b. On the occurrence of the trigger event, any fund value in Multi Cap Growth Fund which is in excess of three times the Income Fund value is considered as gains and is transferred to the liquid fund - Money Market Fund. This ensures that gains are capitalized, while maintaining the asset allocation between Multi Cap Growth Fund and Income Fund in the proportion of 75:25. c. In case there are no gains to be capitalized, funds in Multi Cap Growth Fund, Income Fund and Money Market Fund are redistributed in Multi Cap Growth Fund and Income Fund in 75:25 proportion. iii. **LifeCycle-based Portfolio Strategy 2** a. Under this strategy, the Company's Multi Cap Growth Fund will be used for equity exposure and the Income Fund for debt exposure. b. The Fund Value will be allocated to the Multi Cap Growth and Income Fund as per the Life Assured's age as described in the following schedule.

Age (Last birthday)	Multi Cap Growth Fund	Income Fund
0 – 25	80%	20%

36 - 45	65%	35%
46 – 55	55%	45%
56 – 65	45%	55%
66+	35%	65%

Under this strategy, you have the option to make Partial Withdrawals. Partial Withdrawals and different growth rates of the Multi Cap Growth and Income Fund may cause the actual fund weightings to differ from the above schedule. Since the objective is to allocate assets based on risk appetite at the current age, the Policyholder funds will be regularly rebalanced to achieve the above allocations. This will be done by automatic switching of units between the two funds at every policy quarter. During the last ten quarters of the Policy term, the exposure in the Multi Cap Growth Fund will be systematically reduced as per the Life Assured's age as described in the table below by automatic switches to the Income Fund. This is done so that the Fund Value at the time of maturity is not adversely affected by short term volatility in the equity market that Multi Cap Growth Fund invests in.

Age (Last birthday)		Multi Cap Growth Fund	Exposure in the last ten quarters prior to maturity									
From	To		10	9	8	7	6	5	4	3	2	1

At the time of transfer, the required number of units will be withdrawn from the fund chosen, at the applicable unit value, and new units will be allocated in the chosen destination fund. All assets relating to the Fund shall be and shall remain in our absolute beneficial ownership and control. There is no trust created, whether express or implied, by us in respect of the investments in your favour or assignee or nominee of the policy or any other person.
